

Important Events

Key Dates

Wednesday June 19th – DT Day

Week beginning 24th June – Keeping Healthy Week

Class trip – TBC

Friday 29th June – Sports Day

Thursday 4th July – Parents Evening (1:45pm finish)

Thursday 8th to 10th July – Hispanic Day

Friday 20th July – Last day of term (2pm finish)

Homework

The children will have Literacy and Numeracy homework each week, along with spellings. Homework will be set each Thursday and is due in the following Monday. Spelling tests also take place each Thursday. Please remember to read with your child daily and to sign and comment in your child's home school diary each week.

PE

PE is every Tuesday.

Please ensure that your child has their full PE Kit in school on those days, including shoes suitable for wearing outside.

Year 3 Summer 2 Curriculum Newsletter

Dear Parents and Carers,

Your children are now in their final half term at Southwold Primary School.

We have lots of interesting and new topics to cover this Summer Term with a particular focus on 'Where we live'.

In order to ensure the remainder of the term goes smoothly, we ask for your continued support in reminding the children of the expectations we have of them, both in their learning and their behaviours.

Should you have any concerns or wish to talk to us about your child's progress, please feel free to speak to us. We are available to talk after school on most days.

Information about what your child will learn this half term is on the inside of this booklet.

We look forward to continue to work with you and your child!

Kind Regards,

Miss Hanley and Mrs Silva

As writers we will continue to explore a variety of texts in detail and look at how we can develop our writing skills through learning. We will be focusing on both fiction and non-fiction genres of writing. Children will have the opportunity to develop their ability to write explanation, persuasive texts and short stories, using our science topic knowledge to enhance our writing.

As mathematicians we will continue to develop the mental strategies we use to calculate problems quickly. We will be developing our use of number and work with word problems.

As scientists, we will explore animals, including humans, the types and amount of nutrition they need, why they cannot make their own food: where they get nutrition from what they eat. Using our scientific skills, we will be relating the concepts to existing real-life problems using scientific language.

PSHE & RE

RE: How do Jewish people keep their homes sacred.
PSHCE: Being healthy

Literacy

Adventure stories, explanation, persuasion and vocabulary building

Numeracy

Problem Solving, Number, Shape, Statistics

Science

Animals and the human body

ICT

We will be using spread sheets to sort and organise information, to use and analyse in different ways.

Where we live

The Arts

Celebration Fruit Desert

Humanities

Who lives where?

Physical Development

Athletics

In Design and Technology we will be exploring Healthy Living in a practical way. After doing our own research we will design and make a healthy fruit desert which includes all the right nutrients for energetic children.

We will be learning and practising the various elements of athletics. We will look at running and jumping and then building on these to increase our stamina. We will also practise javelin and shot putt as we lead up to our sports day at the end of term.

As Geographers we will be exploring and studying the features of maps. We will also construct a map of a familiar location using a scale.
